# MAS 20

The MAS 20 is the 2nd version of the Filippi rowing shoes. It is the result of 30 years of experimentation and experience attained at racing venues around the world.

We have taken this project to the next level, focusing above all on a lightweight comfort that makes all the difference in the world when you train for many hours a day and compete at the highest levels.

## Shape design

The shape is focused on replicating the natural shape of the foot to ensure perfect fit.

Connection enhanced and comfort improved in the metatarsal area.

Sole widened: the comfort is guaranteed in terms of trim in order to ensure full load transmission.

The outer sole is ergonomic and has been lightened and softened in the central area to facilitate foot bending.

## The rotors

Two rotors developed by Filippi replace the previous belts.

They permit millimetric adjustment and harness the foot effectively on the foot-stretcher.

The wire has 1.5mm of diameter and a tensile strength at 35kg which guarantees an infinite life to the tying system. Due to this innovation, we developed a new safety release which opens the loop where the wire runs.

## Upper and inner

The upper part is comprised of microfiber, colored in an exclusive shiny light blue with metallic pigments: it improves breathability by reflecting the sun's rays and decreasing the heating.

The inner covering is made from sustainable recycled material.

Innovations at the interlock between inner and outer sole include two waterproof, antibacterial non-woven fabric layers that will be matched with an extruded polyurethane core, to add lightness and flexibility.

## Inner sole

The inner sole has different areas of resistance to optimize thrust and comfort.

Quite simply, there are no parallels in the rowing world.

It is built in E.V.A. (ethylene-vinyl acetate) and designed to avoid heel or tendon inflammation.

## No more blisters on the hill

The heel has been softened and ensures the absence of blisters.

The tongue of the shoe saves the instep from scrapes.

The toecap built in E.V.A. ensures the seal of the shoe tip with longevity and beauty.

## The ultimate Multi Adjustable System

Two titanium plates inside the front of the sole allow an additional 2cm range, to set the optimal depth after making the positioning adjustments permitted by the pins on the main platform.

Additional wedges are available and can be applied under the toe and in the back of the shoe sole, with three different inclinations to enhance the comfort and performance of the athlete even more.

## Size chart

MAS 20 shoes use EUR sizing. Check the international size comparison chart to find the right size.

| EUR | UK     | US    | JP   |
|-----|--------|-------|------|
| 39  | 6.5    | 7     | 24.9 |
| 40  | 7      | 7.5   | 25.5 |
| 41  | 7 1/2  | 8     | 26.2 |
| 42  | 8      | 8 1/2 | 26.9 |
| 43  | 8 1/2  | 9     | 27.5 |
| 44  | 9 1/2  | 10    | 28.2 |
| 45  | 10 1/2 | 11    | 28.9 |
| 46  | 11.5   | 12    | 29.5 |
| 47  | 12 1/2 | 13    | 30.2 |
| 48  | 13 1/2 | 14    | 30.9 |
| 49  | 14 1/2 | 15    | 31.5 |
| 50  | 15 1/2 | 16    | 32.2 |
| 51  | 16 1/2 | 17    | 32.9 |

Tailor made shoe size available on request

## Shoes sanitizer

Take care of the MAS 20 shoes with the bioprotective anti-odor spray, specific for inner shoes. The long-lasting sanitary qualities allow you to maintain excellent hygiene levels in your rowing shoes.
